

Think of this recipe as our feline surf'n'turf! On the menu: whole sardines and 100% Canadian beef. Your cat will just adore this nutritious succulent combo! This formula is ideal for felines who have chicken allergies or reservations.

Sardines contain precious omega-3 fatty acids. These restore the coat's shine and support the joints. Beef, on the other hand, naturally contains all the amino acids essential for your cat's health. The protein is also an excellent source of iron and zinc, two minerals that work wonders on the heart.
