

This double meat recipe is the ultimate feast for your carnivorous feline companion! With its two sources of high-quality protein, duck, and 100% Canadian beef, your cat will receive all the nutrients needed to reach its optimal health.

Richer in protein than white meat, beef contains all the amino acids necessary for a cat's well-being. Additionally, beef provides carnosine, an amino acid that helps reduce inflammation and reinforces the immune system.

Duck is a hypoallergenic protein that contains a well-balanced level of amino acids.

Helps maintain a healthy weight

Human-grade ingredients

Probiotics

Hormone and antibiotic free

### INGREDIENTS
