

Does your dog show signs of food allergies or intolerances? Because our pups count on us to notice these things! To lend a hand, we've come up with a solution: a highly digestible recipe that relieves symptoms of food allergies.

An excellent substitute to chicken, duck is a protein rich in selenium, zinc, iron, and phosphorus. Plus, it's a great source of vitamin B6, known for improving cardiovascular, immune, and brain health.

Allergies or not, your dog will thank you for this one!
